34TH GENERAL CHAPTER

From The Council of Presidency – Rome – 18 July 2022

34th CFIC General Chapter

Communication n. 6

COVID-19: ALL IN LINE. Covid does not give up and neither does our attention. Like the first day, even today the capitular community lined up for the swab (in the photo). The origin from different continents advised to carry out this preventive measure. During the first week of the General Chapter, many delegates spoke about the pandemic time in their countries, where it has left sometimes heavy consequences. The *lockdown* has reduced activities, such as school activities, and not everywhere the gov't has supported the weakest categories. In some cases, the pandemic time has strengthened EU ties and encouraged the search for alternative forms of communication.

EASTERN ASIA. With the report of the superior Andrea Choi and Elio Lancini, the extensive overview of the jurisdictions of the Congregation was concluded. The Far Eastern Delegation operates in the Philippines, South Korea and Vietnam.

BUILDERS OF HOLINESS. The intervention of Dr. Vilotta, postulator general of the Congregation (left), opened a window on the world of holiness, well represented by our founder Blessed Luigi Monti, the venerable Emanuele Stabulum and the Servant of God Ivan Bonifacio Pavletić. Together with his collaborator Fr. Jorge Romero, he urged religious to follow in the footsteps of these splendid figures of saints and to propose them to the entire ecclesial community.

VOICES FROM THE CHAPTER.

Voices from the Chapter: an afternoon live broadcast was transmitted today that proposed brief interventions by ten Chapter delegates: you can watch it on the You Tube channel:
