34TH GENERAL CHAPTER

34th CFIC General Chapter

Comunicato n. 8

From The Council of Presidency – Rome – 20 July 2022

From left: the Brother Priests Victor, Raúl, Jose Mathew and Elio

FRATERNITY. Today and tomorrow the second great topic of the General Chapter is deepened: fraternity. It is a typically evangelical way of life, so desired by the early Christian community. It is also the foundation of the common life of consecrated persons, who are a visible sign that it is possible to try to realize it in daily life. Father Monti's Rule of Religious speaks clearly: they "call themselves brothers". On this theme the capitulars are confronting each other with sincerity, well aware that fraternity is a goal to be achieved, not always easy. The dream continues.

DISAPPEAR. Great satisfaction for the Postulator of the cause of beatification of the venerable Emanuele Stablum: the images were snapped up and the boxes were emptied. The figure of the religious doctor from Trentino conquers believers, but not only, who care about the world of health: from the sick to health workers, from chaplains to volunteers, from family members to administrators of hospitals structures.
