AND IVAN BECAME BONIFACE. The church of the General House in Rome preserves the mortal remains of the Servant of God Ivan Bonifacio Pavletić. He was born in Kutina, Croatia, where in his youth he practiced the craft of shoemaker. He then moved to Graz, Austria, where he attended the Catholic workers' movement founded by the priest Blessed Adolf Kolping. A friend called Johann Müller, decided to go to Rome to find a community in which to consecrate himself as a religious. Ivan, in greeting him, asked to inform him, if he found it. Johann met Father Monti and informed Ivan. He left for Rome and became Brother Boniface.

THE RETURN. Brother Leandro, having cured completely, is now present in the Chapter, where he brings his young experience as superior of the Latin American Province. The work of the groups continued on the theme "Fraternity". The activity continues tomorrow in groups with another very important theme: "Formation". It is a question of reviewing the lines of the formative journey in the Congregation.

SIMPLE AND GENUINE FOOD. Three times a day the capitulars are at the table. These are useful moments to relax, exchange ideas and live in fraternity. Because the Community Rule is clear: meals should be taken together. The people in charge of the kitchen do their utmost to satisfy all tastes, which is not really easy considering that the capitulars come from a dozen different countries. The rule is always in force... what the community passes!
